

## **Kalkaska County**

We are not aware of any mutual aid support groups that are not 12 steps in this county (for 12-step meetings please visit their website for local meetings). If you know of any alternative support groups being held that aren't listed on our site please contact us. There is a need for additional recovery pathways in our communities to give people options for their recovery. If you'd like to start a meeting, or would like more information on how to start one, please contact us. There may be others in your area who would like to help, and we'd love to connect you with them.

Give us a call or e-mail us at:

989-370-7608
